Our Expertise. Your Solution

What sets us apart?

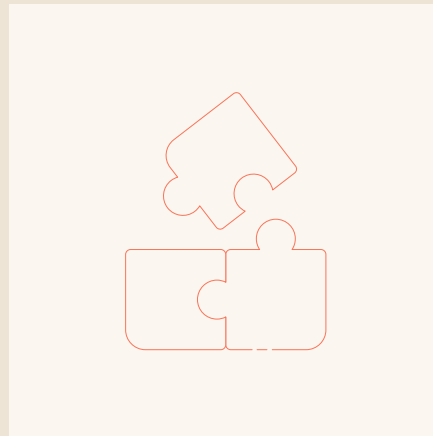

1.

CLIENT COORDINATION

Ensuring clear communication about requirements and Ceramic product feasibility, avoiding any misleading information while maintaining seamless and satisfactory experience throughout the process.

2.

TAILORED SOLUTION

Specialized in delivering ceramic tiles customized to client's design preferences, size formats, and surface finishes.

If clients provide their own designs, we replicate those with precision, ensuring the final product aligns with their vision. Our tailored solutions offer flexibility and creativity for unique, personalized tile projects.

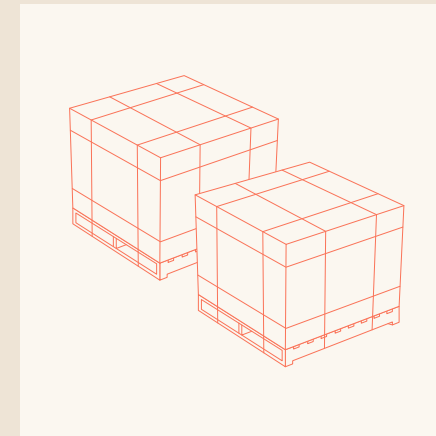

3.

STANDARDISED QC

With in-depth production expertise and rigorous quality control processes, we ensure every ceramic tile meets European standards for durability, aesthetics, and performance, delivering premium-quality tiles that exceed industry expectations.

4.

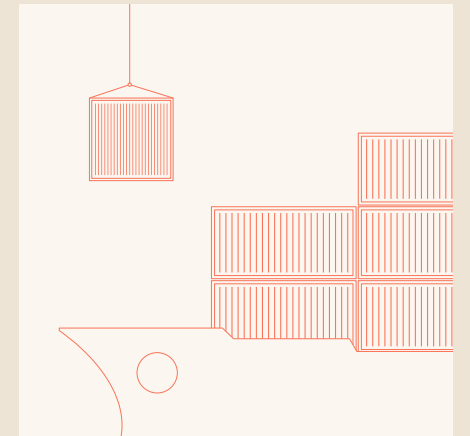

PACKING FINISH GOOD

We offer tailored packaging solution to suit client's needs and satisfy their country's norms including customized carton designs and variety of pallets.

Our flexible approach ensures safe and secure transport and even storing for longer time at client's warehouse.

5.

EXPORT & DELIVERY TO DESTINATION

We support clients at every step of the export process, from loading at the factory to cargo transit and delivery to their country.

Our goal is to ensure that ceramic tiles arrive as envisioned during the ordering process, maintaining quality and consistency throughout the journey.

Features

HYGIENIC

Ceramic material is easy to clean, hygienic and practical; all it takes is a simple, neutral detergent to remove dirt and restore it to its original splendor.

FROST PROOF

Porcelain stoneware is resistant to frost and to all kinds of attack from the elements, making it the ideal product also for outdoors.

STAIN RESISTANT

Ceramic material is resistant to stains and is not damaged by the use of solvents and detergents.

WEAR RESISTANT

Porcelain stoneware is an ultra-compact technical material, extremely resistant to wear, tread, shock, scratching and heavy loads.

LOW WATER ABSORPTION

Low water absorption ceramic tiles are stronger, denser, and more resistant. They are also less likely to crack or peel due to climate change.

THERMAL EXPANSION

Ceramic tile is immune to thermal expansion and contraction, body's size does not change when heated or cooled.

RESISTANT TO UV RAYS: Lasting Color Stability

Ceramic material does not fade even after lengthy exposure to sunlight, and maintains its aesthetic and technical characteristics over time.

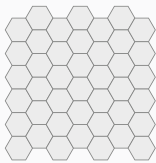

ECO-SUSTAINABLE PRODUCTION

The company's production process uses a system that collects and re-uses production waste, processing water and the heat generated during the production process.
